USC President Carol Folt,

I would like to coordinate a meeting for you with Swyft Cities, Paul Krekorian the head of The Office of Major Events for LA 2028, as well as Fiona Ma, CA State Treasurer and candidate for Lt. Governor to discuss what it would take to install the best possible network before the opening ceremonies.

Fiona had a great meeting with them last week up in Mountain View, and is actively engaging with her network on the company's behalf.

My dream would be to get it on campus, the surrounding community, and all the way around the Coliseum, Lucas Museum, Natural History, CA Science Center. A network that large would most likely take longer to build, but something is possible if we act now. That is why I'm reaching out.

I am a graduate of USC School of Theater class of 2002. My story is kinda interesting. Out of college struggling actor, all the way to meeting with Elon Musk 3 weeks before the release of the Hyperloop. I am now an angel investor and next generation transportation entrepreneur. In my expert opinion Swyft Cities is the best positioned company to provide automated transportation networks in the future.

Here is the link to the Swyft Cities deck.

<https://docsend.com/view/ik6kv7e7iqkp7xc2>

And here is the Google News search, a lot of which is dominated by the agreements in Sugar Land Texas.

I hope this message finds you well and I look forward to hopefully setting up the meeting soon.

Warm regards,

Nick Garzilli
