Hello Councilmember Harris-Dawson,

Thank you Jayda, for taking my call and forwarding info regarding Swyft Cities as a mobility addition to the LA Olympic Games and beyond.

I would like to request the participation of the City Council ad hoc Olympic Committee in a meeting scheduled next week Wednesday 2/19 at 10am at USC.

This has been arranged through the Office of USC President Folt and the General Manager of Exposition Park Andrea Ambriz, with the support of Fiona Ma, CA State Treasurer and candidate for Lt. Governor.

Fiona Ma met with Swyft Cities at their offices in Mountain View on 1/17. To quote her, "If they had this in San Francisco, people would come back!". She is actively introducing us to people in her network.

I was with Fiona Ma at a swearing in ceremony on 1/26 and met Josh La Farga, Director of External Affairs for LIUNA, and when I showed him Swyft Cities he immediately thought of Long Beach and his good friend Mayor Rex Richardson. Great news. We are all set for a meeting at Long Beach City Hall this Thursday 2/13 at 3pm.

Swyft Cites is a one of a kind transportation system, spun out of Google, with multiple active projects around the world and USA.

Here is the deck used for cities and developers:

Here is the Google News search, a lot of which is dominated by Sugar Land Texas.

I am a next generation transportation entrepreneur and an investor in Swyft Cities. In my expert opinion Swyft Cities is the best solution to adding mobility to locations because of its unique fixed cable-to-rail design. Most importantly, it is the first class team led by Founder and CEO Jeral Poskey that will make it happen.

Please let me know who will be able to participate in the meeting on 2/19 at 10am in-person or via

Zoom. I have cc'd Sharon Villaba, Administrative Assistant at USC Transport, who has kindly organized the meeting and will help arrange parking or Zoom meeting invitations for invitees.

Warmest regards,

Nick Garzilli
